Subject: Three more months to get certified in RPA at no cost!

Hi ujjwal,

Here comes lovely spring with a rush of blossoms and other exciting news from your team at UiPath.

To celebrate the Academyâ€™s 2nd anniversary coming in May, and your amazing investment of more than six million training hours, we are extending the **FREE RPA Developer Advanced Certification** exam for another three months.

Use this opportunity **before June 30** and become one of the trailblazers in the automation first era!

Are you already certified? Great! Spread the word, letâ€™s make automation accessible to everyone.

Love, your UiPath Academy team
